SUMMARY

Ph.D. candidate in **Vision-Language Artificial Intelligence** at the **University of Pisa** and Research Fellow at the **National Research Council** in Pisa. My research focuses on **Vision-Language Models**, particularly in understanding, improving, and exploiting the representations learned by foundational models such as CLIP and DINO for image-text tasks. My work has been published at top-tier venues such as **CVPR** (three times, including a Highlight Paper), **ICCV**, and **WACV**, and I have received **Best Paper Awards** at CBMI and IEEE-CH. Previously, I worked as **Research Intern** at **Disney Research | Studios** in Zürich, focusing on large-scale diffusion models for text-conditioned image generation.

EXPERIENCE

- **National Research Council (CNR)** 
Research Fellow (from Apr. 2026, prev. Associate Researcher)
◦ Conducting research on studying, enhancing, and exploiting foundational model representations (CLIP, DINO, etc.) for vision-language tasks
Mar. 2023 - Ongoing
Pisa, Italy
- **Disney Research | Studios** 
Research Intern
◦ Designed, implemented, and trained large-scale diffusion models for image generation.
◦ Supervised by Dr. Vinicius C. Azevedo.
May 2025 - Aug. 2025
Zürich, Switzerland
- **WEVO** 
Machine Learning Engineer
◦ Developed a deep learning sentiment analysis system for social media posts for automatic content classification.
Apr. 2024 - Jul. 2024
Pisa, Italy

EDUCATION

- **University of Pisa**
Ph.D. in Vision-Language Artificial Intelligence
◦ Research interests: Vision-Language AI, Representation Learning, and Unsupervised Learning.
◦ Supervisors: Dr. Fabrizio Falchi, Dr. Fabio Carrara, Dr. Nicola Messina, Dr. Giuseppe Amato.
Mar. 2023 - Present
Pisa, Italy
- **University of Pisa**
M.Sc. in Artificial Intelligence and Data Engineering
◦ Final Mark: 110/110.
◦ Thesis Title: "Design and development of cross-modal retrieval techniques based on transformer architectures".
Sep. 2020 - Feb. 2023
Pisa, Italy
- **University of Pisa**
B.Sc. in Computer Engineering
◦ Final Mark: 110/110.
◦ Thesis Title: "Dynamics analysis of sports events on online social networks through clusters".
Sep. 2017 - Sep. 2020
Pisa, Italy

HONORS AND AWARDS

- **Outstanding Reviewer**, Recognized for exceptional contributions at CVPR 2026
- **Best Paper Award**, IEEE International Conference on Cyber Humanities (IEEE CH) 2025
- **Best Paper Award**, International Conference on Content-Based Multimedia Indexing (CBMI) 2024
- **Highlight Paper**, IEEE/CVF Conference on Computer Vision and Pattern Recognition (CVPR) 2024
- **Team Winner**, ZeroRobotics Italian High School Tournament (Teamleader of TeamOre) 2015

SCHOOLS

- **International Computer Vision Summer School (ICVSS)** (Attendee) Sicily, July 2024
- **ELLIS Summer School on Large-Scale AI for Research and Industry** (Attendee) Modena, Sept. 2023

ACADEMIC SERVICES

- **Conference Reviewing:** NeurIPS (2026), ECCV (2026), CVPR (2026 - Outstanding Reviewer), BMVC (2025)
- **Journal Reviewing:** IJCV (2026)
- **Doctoral Consortium:** CVPR (2026)

SKILLS

- **Programming:** Python (advanced), C/C++, Java, MATLAB
- **Deep Learning:** Transformers, CNNs, Diffusion Models, World Models
- **DevOps & Environment:** Docker, Conda, Slurm, Kubernetes, Spark, Hadoop, Unix/Linux systems, Git
- **Web Development:** HTML, CSS, JavaScript, PHP, Flask, Apache
- **Libraries & Frameworks:** PyTorch, Pytorch Lightning, OpenCV, scikit-learn, NumPy, Pandas, Ollama, Pydantic
- **Databases:** MySQL, MongoDB, Neo4j
- **Languages:** Italian (mother tongue), English (fluent)
